

r2p revolutionizes Smart Mobility

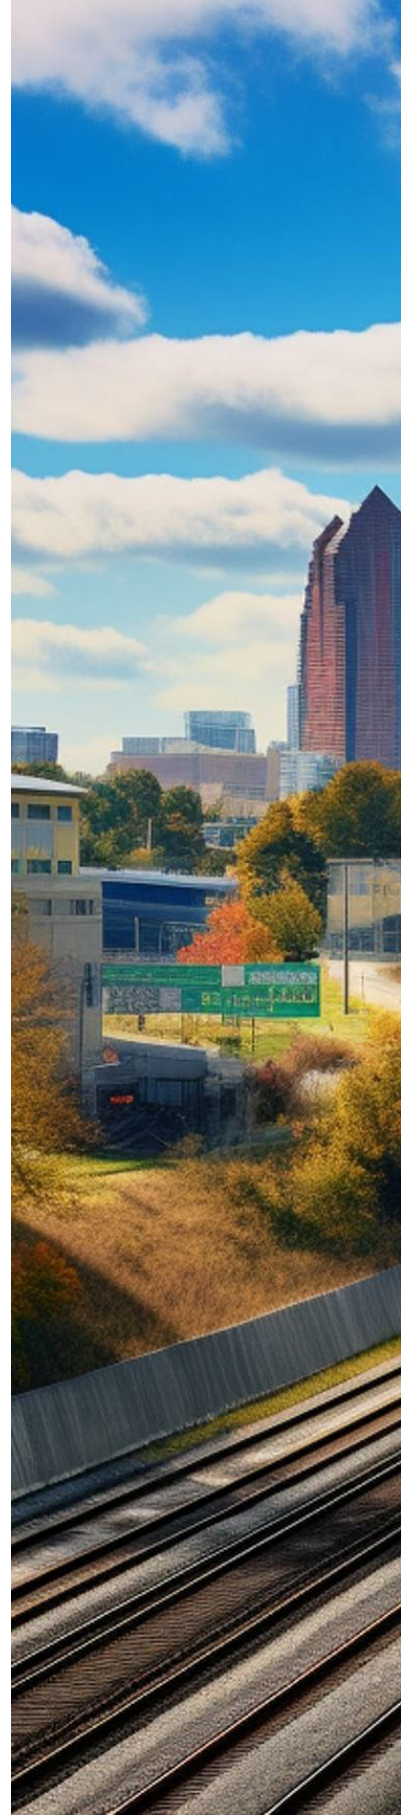

r2p revolutionizes Smart Mobility

In the rapidly evolving landscape of Smart City Transportation, the r2p Group stands out as a beacon of innovation and excellence. Founded with the mission to design and develop intelligent technology systems that set the highest standards in quality and safety, r2p has become synonymous with cutting-edge solutions for the mobile transport sector. Our collaboration with Stadler US is a testament to our shared values of innovation and excellence, marking a significant milestone in our journey to redefine transportation.

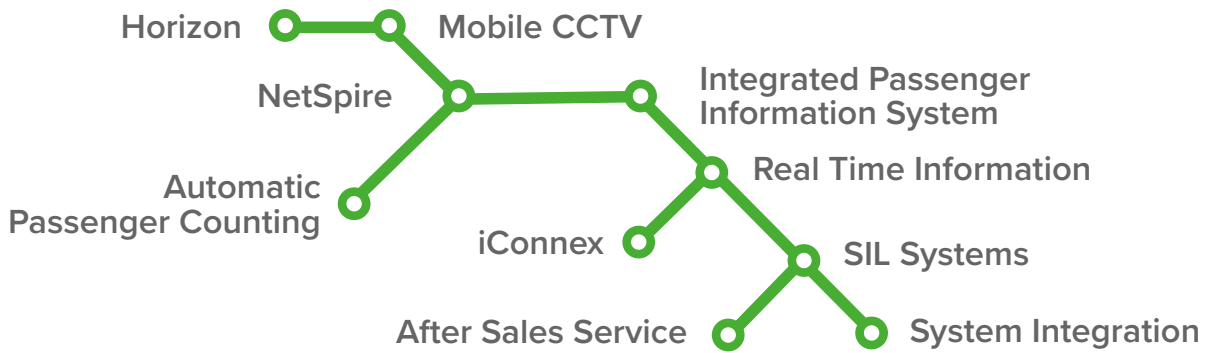

A Journey of Growth

Since its inception, r2p has embarked on an extraordinary journey of growth and innovation. Our comprehensive portfolio includes CCTV, Passenger Information Systems, Network Audio Solutions and Automatic Passenger Counting, all equipped with real-time data transfer capabilities for rail and road vehicles, as well as fixed infrastructure.

Headquartered in Flensburg, Germany, the rapidly growing r2p Group operates internationally in 45 countries with competence centers in Australia, Canada, Malaysia, Denmark and the United Kingdom. With additional subsidiaries and offices in the US, Spain, Italy, Switzerland and Brazil, r2p takes pride in being a truly global company.

r2p NetSpire

The r2p NetSpire solution redefines flexibility and scalability in Passenger Information System applications. As a client-hosted, networked IP-based system, it offers unparalleled modularity, allowing for easy configuration and integration with existing infrastructure. From integrated public address systems to passenger information displays and passenger emergency intercoms, r2p NetSpire delivers a comprehensive integrated solution that enhances passenger experience and safety, supported by a robust web interface for effortless transit operator management.

r2p HORIZON

Our flagship CCTV software solution, r2p HORIZON,

epitomizes innovation by unifying our entire CCTV product portfolio under one intuitive, modular platform. Designed for efficiency and ease of use, r2p HORIZON allows for seamless remote management and maintenance of r2p CCTV services, ensuring our customers can enjoy reduced operational costs and enhanced fleet availability. r2p Horizon is available as a highly-secured Software-as-a-Service or on-premise hosting solution, with our experts' user support and software maintenance. All options comply with our high GDPR and security standards.

Expanding our Reach – r2p in the US

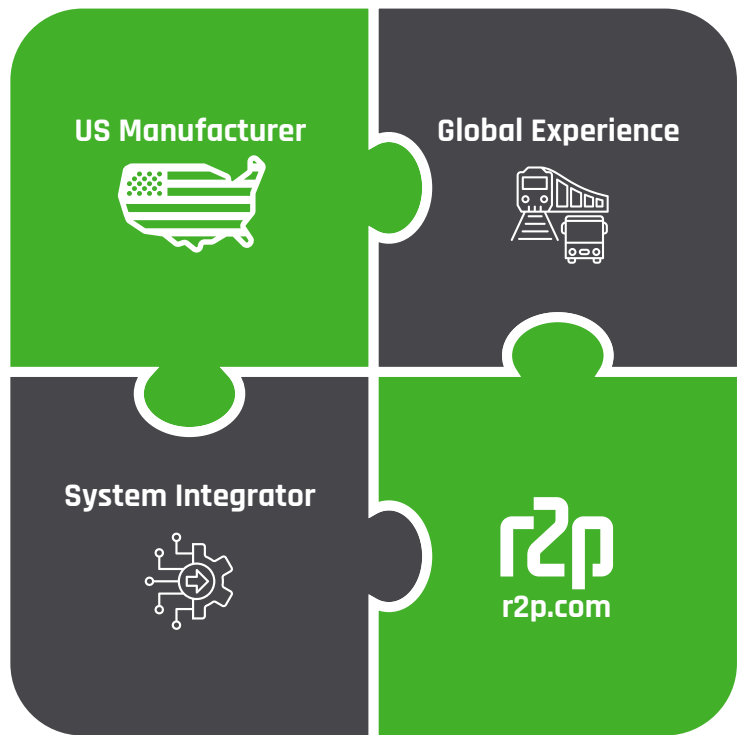

Our newest subsidiary, r2p USA Inc., harnesses the r2p Group's unparalleled global depth of knowledge in OEM

hardware manufacturing, software development, and systems integration. As a wholly owned subsidiary of T.G. Baker Americas Inc. (part of the r2p Group, headquartered in Toronto, Canada), who has been delivering major transit projects for many years, r2p USA Inc. is equipped with the tools to successfully support the full turnkey project delivery of our integrated Passenger Information Systems, mobile CCTV and Automatic Passenger Counting solutions across the US. Our state-of-the-art manufacturing facility in Buffalo represents our commitment to delivering Buy American Act (BAA)-compliant products that exceed industry standards. Our involvement in several major existing US CCTV and Passenger Information System projects including

the MARTA Metro Train Replacement Project (Atlanta, GA), the KCATA Streetcar Project (Kansas City, MO), the HART LRT Rail Project (Honolulu, HI) and the MBTA Green Line Project (Boston, MA) underscores our dedication to excellence and innovation as well as signaling our intent to expand our presence in the US market. With the implementation of our strategic sales presence in Chicago, IL, and our BAA-compliant manufacturing facility in Buffalo, NY, r2p is poised for further growth, ready to forge new partnerships and explore new opportunities in the North American market.

Towards the Future of Smart Mobility

At r2p, we are driven by a vision to revolutionize the landscape of intelligent transportation solutions.

Our commitment to quality, innovation, and customer service is unwavering, as we continue to push the boundaries of what is possible. We invite you to join us on this exciting journey to explore the possibilities and shape the future of Smart Mobility in

the US. Let's embark on this road to innovation together, with r2p leading the way. To learn more about our capabilities, discuss partnership opportunities, or schedule a visit to our manufacturing facility, please contact our dedicated team.
